NATIONAL SEMINAR ON

WOMEN EMPOWERMENT : EMERGING TRENDS & CHALLENGES

7th OCTOBER 2017 (Saturday)

PROLOGUE

Women empowerment is the process of treating the women with same status as that of men in all the fields of the society. Women Empowerment has become a movement now but in our country it only seems a distant dream. We have restricted our perceptions to only upliftment of women- from the value of an object to the value of a living being. But what is required in the present period is something beyond it. We make a great show off whenever a woman makes high achievements but instead of showing off, why not accept it to be natural and normal like we do with men doing the same.

Contrary to today's scenario, even during Vedic era women had enjoyed equal status with men. Various modes were also adopted to ensure that this stature continues. Like Stridhan and the description of women scholars like Maitray, Gargi shows the importance a woman hold during that period. However this could not continue for long and women lost their value. Now the basic problem a woman faces is that of education, poverty, safety and health. In order to tackle it, various schemes and policies are drafted and implemented. So is its significance that even the UN has dedicated one of its Millennium Development Goals to Empowerment of Indian woman.

Sub-themes

The Sub-themes of the Seminar are topic:- Women Empowerment : 'Emerging Trends and Challenges'

- Social-Legal Issues pertaining to Women related Problems;

- To Highlight the Importance of Women Empowerment in bringing Gender Equality, Enhancing the Social Status of Women and Achieving the Social and Economic Growth of the Country.

National Seminar on

“GENDER DISCRIMINATION AT WORKPLACE - MYTH OR REALITY”

19TH JANUARY, 2018 (Saturday)

About the Seminar

Gender being Socio-Cultural term referring socially defined roles and behaviours assigned to 'Males' and 'Females' in a given society. Gender discrimination in simple words may be defined as discrimination against on their sex specially at Work Place.

Women represent half of the population but they are not socially equal to men because of their social status, economic resources, decision making and political power and work they perform women's tolerance and working capacity is comparatively more in comparison to men even though they are considered by the society as weaker section. She has been accorded as subordinate position of men. She is exploited, degraded, violated and discriminated both in our homes and in outside world. This peculiar type of discrimination against women is prevalent everywhere in the world and more so in the Indian Society. The root cause of Gender inequality in our society lies in its patriarchy system. The unfortunate part of gender inequality in our society is that the women too, through, continued socio-cultural conditioning have accepted their subordinate position to men. Extreme poverty and lack of Education are also some of the reasons for Women's low status in society.

Indian constitution and some other social legislations and Indian Courts provided for some positive efforts to eliminate Gender Discrimination some provisions of the constitution may be referred as preamble, Art 15(3) and Directive Principles of State Policy which provides various provisions which are for the benefit of women and provides safeguards against discrimination. The other social Legislations may be referred as Maternity Benefit Act 1961, Sati Prevention Act 1987.

Dowry Prohibition Act 1961, Section 304 A was added to the Indian Penal Code, 1860 to make Dowry Death or bride burning a specific offence punishable with maximum punishment of life imprisonment, Section 375, 376, 377, of IPC were also modified and Equal Pay For Equal Work legislation was also made and Domestic Violence Act 2005 etc.

The Supreme Court in case of *Vishakha v/s State of Rajasthan; 1997* had also given guidelines for abolition of harassment of women at working place and a Legislation (Sexual harassment of women at workplace (Prevention, Prohibition & Redressal) Act 2013) by parliament had also came up to safeguard women at workplace. It also helps women from harassment at working place.

The fight against sexual harassment is a central point of the continuing fight for gender Justice. Gender Justice means nobody be denied Justice or discriminated only because of one's Sex and its Gender construct. Gender is defined as a biological Sex differences. The Gender affects the distribution of resources, wealth, work, decision making and
